Please remove the duplicate "<213> Artificial Sequence", and provide a
<220>-<223> section giving the source of the genetic material of
"Artificial Sequence".

Please provide a <220>-<223> section explaining "<213> Artificial
Sequence": please clearly indicate the source of the genetic material.
Also, the <223> response regarding the "s's" and "n's" is erroneous:
"s" can only represent c or g. Please re-word the <223> response as
follows: s represents c or g, and n represents a, t, g or c.

<160>   414

Although the above <160> response is "414", 415 sequences are in the
submitted file. See below for last sequence:
